

### Productivity

Today's manufacturers are competing with cheaper labor and lower costs. Today, as never before, we are being challenged to be more productive, to do more with less. Increasing productivity involves so much more than just cost cutting. It is about increasing the value of the output of your work force. It is about managing all of your resources wisely and efficiently.

### x/DC Device Management Remote Admin Made Easy

Remote manage your devices on the shop floor without leaving your desk!

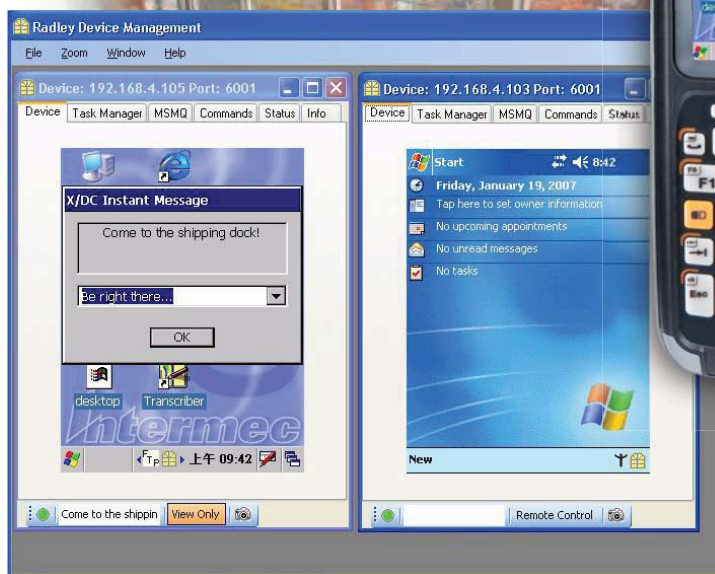

Radley's Device Management gives you the ability to view, manage, and control your devices from anywhere on your network.

From your desktop you can use text messaging to easily send reminders to workers on the shop floor.

Configured within Intermec's SmartSystems technology, Radley's Device Management is easily deployed to your devices.

With automated version control, the x/DC client will check for updates, download and install them, and be ready to use.
