

**Productivity**

Today's manufacturers are competing with cheaper labor and lower costs. Today, as never before, we are being challenged to be more productive, to do more with less. Increasing productivity involves so much more than just cost cutting. It is about increasing the value of the output of your workforce. It is about managing all of your resources wisely and efficiently.

**Web Supplier-Labeling™**

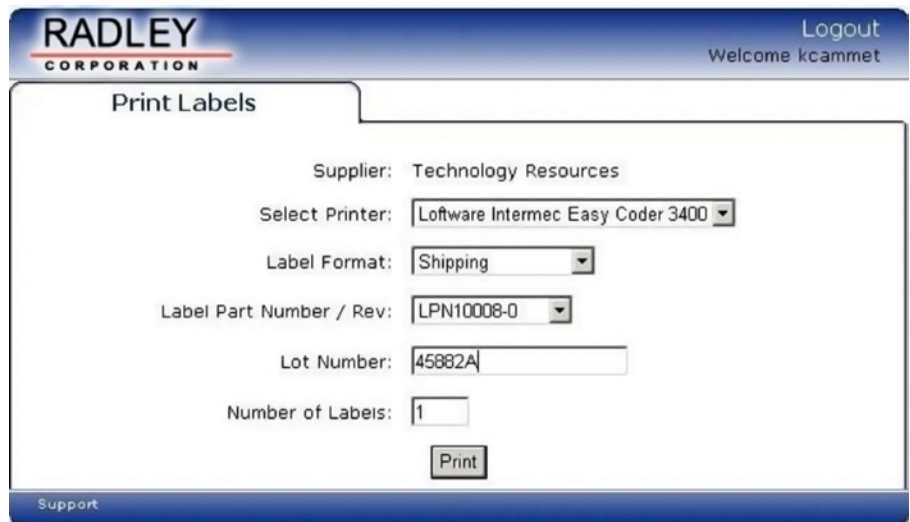

Your vendors use the labels you define.

Using their own Windows PC, a web browser, and a bar code label printer, your suppliers can print and apply labels that meet your specifications. Assign each supplier with the data for the specific materials to be shipped by the purchase order.

When materials arrive at the receiving dock, they have your barcodes in your format. Quickly scan the labels applied by your supplier — no more printing and applying labels at your receiving dock!

Find out how Radley's Workforce Productivity Solutions can work for you. Contact us today!

**Labels in Your Format — Using Your Data — For Shipment to You!**

**Streamline Receiving Processes**

No Need to Re-Label

Parts Arrive Ready to Scan Into Production
