CAI Software, LLC Acquires Radley Corporation and Its EDI and Data Collections Software Suites

Southfield, Michigan and Smithfield, Rhode Island (December 23, 2020) – CAI Software, LLC, ("CAI" or "CAI Software") a leader in the delivery of mission-critical enterprise resource planning (ERP), manufacturing execution systems (MES) and warehouse management software (WMS) and services, today announced that it has acquired Radley Corporation ("Radley"), a leading developer of electronic data interchange (EDI) and data collection software solutions for manufacturers.

Radley's software solutions complement and add significant value to CAI Software's existing portfolio of products and services, and the acquisition aligns with CAI's strategy of enhancing the breadth and depth of its solutions for manufacturers and distributors with industry specific requirements.

Brian Rigney, Chief Executive Officer for CAI Software said, "Radley's strength in electronic data interchange (EDI) and data collection, combined with its loyal customer base and proven business model, offer an exceptional opportunity for growth. This acquisition adds to and extends our platform of mission-critical, production-oriented software systems for middle market and enterprise customers. We're excited to partner with the entire Radley team and to build on the company's position as an industry leader."

Roland Radinski, founder and CEO of Radley Corporation said, "We are absolutely thrilled to join the CAI Software family and are confident that the partnership will benefit all Radley stakeholders. CAI Software shares our long-standing commitment to our employees and customers, and we're excited to play a role in the next phase of the company's expansion. Importantly, the additional resources that the merger brings to our business will enable us to continue delivering software and solutions that enable our customers to operate efficiently and profitably."

"Further, I would personally like to thank all the Radley employees for their loyalty, creativity and dedication to hard work that have made this company what it is today. We have come a long way from our humble beginnings and now by joining CAI, and with the synergies created by doing so, we are assured of a bright and exciting future," added Radinski.

Radley will operate as a subsidiary of CAI Software and will maintain its sales, support and development offices in Southfield and Grand Rapids, Michigan. All current employees will continue in their roles.

Today's announcement follows CAI Software's June 2020 acquisition of Robocom Corporation, a leading warehouse management software (WMS) provider for food manufacturers and distributors, the 2018 acquisitions of Casco Development, LLC, developers of the ShopVue™ manufacturing execution system (MES) software for leading manufacturers globally, and IMS Software, LLC, developers of the

Food Connex™ ERP software for meat, seafood and poultry distributors and processors, providers of dry goods, provisions, specialty items and produce.

The transaction closed on December 23, 2020. Financial terms of the transaction were not disclosed.

About CAI Software, LLC

CAI Software, LLC is a leader in the delivery of mission-critical, production-oriented enterprise resource planning (ERP), manufacturing execution systems (MES) and warehouse management software (WMS) and services to leading companies in select vertical markets, including building materials, food processing and distribution, precious metals and discrete manufacturing.

CAI Software's ERP solutions automate key production, distribution and financial processes, help meet fluctuating customer requirements, increase productivity and maximize bottom-line profit. Our flagship MES solution — ShopVue — is a modular, operator-friendly system enabling mid-to-enterprise-sized discrete manufacturers to better manage their people, processes, orders, and machines. ShopVue customers achieve measurable improvements in quality, cost and delivery time.

CAI Software is headquartered in Rhode Island, USA. For more information, please visit www.caisoft.com.
